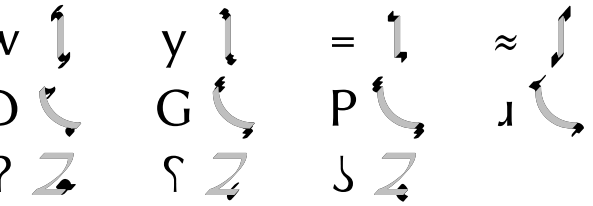
Other extensions:

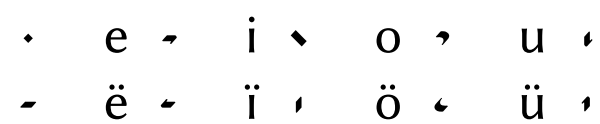


Diacritics:

Placed with ^_ < >

Diacritics may be placed either higher or lower by doubling the marks: ^^and __

Vowels:



Diphthongs:

Other:

The ; is a blank character on which diacritics may be placed.

Tertiary characters:

Ligatures starting with ≡ ⁝

Effects, phases and aspects are treated as diacritics on valences, and placed with ^_

The code is based on my impression of what extensions each character looks like it's composed of.

Valences:

≡aa ≡az ≡za ≡zz ≡sa ≡as
≡af ≡av ≡sf

Effects:
